RACE FEELING AT SPRINGFIELD HIGH

Negro Ruffian Is Shot Down by Boy Whom He Attacks and Lawless Spirit Is Intensified---Lynchers Arrested.

SPRINGFIELD, Mo., April 16.—Leslie Peters, 16 years old, shot and killed Ralph Burns, a negro of bad reputation, one of two who attacked him in this city tonight while he was escorting a young lady home from a party. The negroes accosted him at the gate of the young lady's home, and one of the negroes fired two shots from a revolver at him, but neither shot took effect. Peters immediately fired four shots at the negroes, killing one of them. The other escaped. Peters went to the police station and gave himself up, but he was released without bond.

The news of the killing of another negro spread like wildfire through the city, and hundreds of people left their beds and hastened to the public square. The militia on guard there prevented any violent outbreak, and after a time dispersed the crowds, and no further trouble is feared tonight. People who had been disposed to sympathize with the negroes are incensed at this latest negro assault.

A squad of militia was detailed to guard the home of the young lady whom Peters was escorting when he was attacked.

SPRINGFIELD, Mo., April 16.—Four men are now under arrest here charged with being leaders in the mob that broke into the county jail Saturday night and lynched three negroes. One of the alleged mob leaders is in jail, and three have been released on bond.

Charles Cannefax and Oney Calfey were the first men arrested. Cannefax had been a pool room proprietor, but is at present employed in the St. Louis and San Francisco railroad yards. Calfey is a switchman for the same road. Dan Crane, son of D. D. Crane, a well-known saddlery merchant, was the third arrested. Crane moves in the best society here. These three have been released on bonds. Oat Hall, the last man arrested, is a police court character. Hall is in jail.

Cannefax went to Sheriff Horner today and inquired how much damage had been done by the mob on the sheriff's property. Cannefax was informed that it would amount to $1,000. He then said a collection would be taken up to repair the loss, but the offer was flatly refused by Sheriff Horner.

The grand jury will meet tomorrow morning especially to indict those who were in the mob of lynchers.

Twenty-five Warrants Out.

Up to noon today men who had been in the mob made no secret of it. They stood upon the street corners and joked each other about it, but when word came that Governor Folk had offered $300 reward for the conviction of any member of the mob, and when Roscoe Patterson, prosecuting attorney, declared openly that he intended to work for the arrest and conviction of every man concerned in the lynching, there was uneasiness. At noon it became known that 25 warrants charging murder in the first degree were in the hands of the sheriff. After the arrests the members became alarmed and left the streets. Before dark the square was deserted and tonight it is absolutely quiet. Around the jail are camped 200 soldiers, with guards out at every point, so that no one can get near the jail. No mob that might be raised here could face this soldiery and no one expects a mob or any further trouble as long as the militia stays.

Rush Lake, assistant attorney general, will be here tomorrow as the governor's representative, and his advice and that of DeArmond, adjutant general, in this matter will probably be followed up by the governor. DeArmond is camped with the militia in the jail yard.

When Cannefax was arrested today it was discovered that he was a special police officer, sworn in yesterday to help keep the peace here. He had a revolver in his pocket.

Leaders Are Well Known.

It is expected that the grand jury will indict at least 50 and perhaps 100 men. All men supposed to know the name of any of the mob will be summoned before the grand jury and in this way the prosecutor hopes to get the names of nearly all who took an active part in the assault upon the jail. Not a man in the mob wore a mask or made any attempt at concealment. The names of the leaders and of those who led the negroes by ropes through the streets, and who lynched them afterward, are well known here.

JEFFERSON CITY, Mo., April 16.—On leaving for St. Louis this afternoon Governor Folk made the following statement:

"I am now advised that about 100 of the leaders of the Saturday night mob are known. I have instructed General Clark to arrest these and place them in jail. If an attempt at rescue is made and more troops are needed, I will send the First regiment and light battery A of St. Louis."

PRESIDENT APPOINTS TWO PANAMERICAN DELEGATES

WASHINGTON, April 16.—President Roosevelt has decided to appoint Charles B. Aycock, former governor of North Carolina, and Van Leer Polk of Tennessee, members of the delegation from the United States to the Pan-american conference, which is to meet in July at Rio Janeiro. These appointments are to be in accordance with the wishes of the southern members of congress who, in view of the fact that many of the questions to be considered by the conference are of special interest to the south, have felt that men identified with that section of the country should be members of the committee.

BANK SUSPENDS.

SHREVEPORT, La., April 16.—The suspension of the Merchants and Farmers bank for liquidation was announced today by its president, A. H. Leonard. Assets amount to $687,126 and liabilities to $518,126. Depositors will be paid in full.

MAXIM GORKY IS SHOWN UP

DISPATCH SAYS HE IS TRAVELING WITH WOMAN WHO IS NOT HIS WIFE.

COMPANION IS ALSO WELL-KNOWN REVOLUTIONIST. SOME FACTS FROM ST. PETERSBURG.

ST. PETERSBURG, April 16.—Maxim Gorky's reception in the United States is giving the Russian government considerable concern. An official here made the following statement:

"In listening to Gorky the American people should understand that he is not a Liberal nor a reformer, but a revolutionist pure and simple. He is certainly a writer of talent, perhaps a genius, and no doubt what he says regarding the conditions in Russia doubtless is true, but it should be made clear that his object is not reform but revolution.

"Mme. Andreeva, who accompanies him, is not his wife. She also is a revolutionist and M. Morosoff, one of Moscow's merchant princes, gave her $1,000,000 for the revolutionary cause. When the government last summer secured proof of this fact he was given 24 hours to leave Russia or stand trial here. He fled to Paris, where he committed suicide."

M. Morosoff of Moscow, who was known as the Russian Cotton king, was prominent in the Liberal movement last year and it is possible he is the person alluded to in the foregoing statement, although no information of his expulsion or his suicide in Paris had reached this country. It was he who, immediately after the "Red Sunday" massacre of January 22, 1905, publicly accused Grand Duke Sergius, who subsequently was assassinated, of having embezzled funds donated to the Red Cross society. M. Morosoff also offered to give bail for Gorky when the latter was arrested on the charge of conspiring to subvert the government. In March, 1905, Morosoff published a call for a private meeting of leading men in the industrial life of Russia to make representations to the government regarding the menace of the political situation to the trade and industry of the country.

SMELTER FURNACE MEN GET INCREASE IN WAGES

TACOMA, Wash., April 16.—Manager W. R. Rust of the Tacoma smelter today announced a reduction in the working hours of about 400 furnace men. They have been working 12 hours a day, but hereafter they will work eight. Wages were recently raised in the plant and the pay of the furnace men for eight hours will be the same as they received for 12 hours before the recent increase. One hundred additional men will be employed.

CONVICTED OF FORGERY.

NEW YORK, April 16.—T. C. P. Colmey was convicted today of forgery in connection with the sale of forged securities of the Norfolk & Western railroad. The securities forged, some of which were marketed, had an apparent value of many thousands of dollars.

ROSEBEN, THE FAVORITE, WINS CARTER HANDICAP

NEW YORK, April 16.—Roseben, the favorite, won the Carter handicap today. The finish was fought out in a hard drive between Roseben and Southern Cross, an outsider. The favorite won by a head. A long gap of daylight separated the first two horses from the others. Coming out of the ruck at the sixteenth pole, Red Knight ran into third place, barely nipping the short end of the purse from Whimsical. The time was 1:26 2-5 for seven furlongs.

NO EXAGGERATION OF FAMINE CONDITIONS.

WASHINGTON, April 16.—Charles B. Harris, United States consul at Nagasaki, told the president today that there had been no exaggeration of the famine conditions in northern Japan. Mr. Harris said the famine was due to the failure of the rice crop. He said that Japan is recovering rapidly from the depression in business resulting from the war. Nagasaki in particular is developing the ship-building industry and 6,000 men are now employed in the yards there.

FATAL WRECK.

CINCINNATI, April 16.—Passenger train No. 7 on the Louisville & Nashville road, which leaves Cincinnati at 11:30 a. m., was wrecked at Verona, Ky., 26 miles south of Cincinnati, this afternoon. Engineer John Grady of Louisville was killed, and Fireman Dunnaway of Covington, was seriously injured. None of the passengers were injured.

CONSTABULARY ATTACKED BY BAND OF LADRONES

MANILA, April 16.—The headquarters of the Philippines constabulary at Maolos, Island of Luzon, were attacked by a band of ladrones several days ago. Three native members of the constabulary and one ladrone were killed. The affair creates no alarm here, where it is regarded as an incident merely to establish order in the islands through the employment of a native constabulary. Similar conflicts between the local outlaw bands are of more or less frequent occurrence.

J. W. SHEAFOR IS NAMED A JUDGE

APPOINTED BY GOVERNOR McDONALD TO SUCCEED JUDGE R. E. LEWIS ON THE DISTRICT BENCH.

DENVER, April 16.—John W. Sheafor of Colorado Springs was appointed by Governor McDonald this afternoon as district judge to succeed Judge Lewis, who has been named to fill the vacancy caused by the resignation of Judge Moses Hallett of the United States district court. No other name for the position was presented to the governor. Mr. Sheafor was strongly endorsed by members of the bar of El Paso county. He is deputy district attorney under District Attorney C. C. [illegible] and was formerly city attorney of Colorado Springs.

A prominent feature of Friday's program will be the presentation of a medal to the republic of France by the United States.

INJUNCTION SUIT TO BE DISMISSED

VERNER RESOLUTION AIMED AT HYDRO-ELECTRIC COMPANY IS RESCINDED BY CITY COUNCIL.

The city council last night passed a resolution canceling the Verner resolution by which the water superintendent was to take possession of the city water system under instructions from the city attorney. It is understood that the injunction proceedings that have been instituted by the Pike's Peak Hydro-Electric company in the district court against the city, to restrain any officer of the city from acting under that resolution, will be dismissed. The resolution rescinding the Verner resolution was introduced also by Alderman Verner, and was adopted by a unanimous vote.

IT IS DOWIE'S NEXT MOVE

GENERAL OVERSEER W. G. VOLIVA PRESENTS HIS ARBITRATION SCHEME.

THAT OR NOTHING, HE SAYS. UNITED STATES GOVERNMENT MAY TAKE PART IN SQUABBLE.

CHICAGO, April 16.—General Overseer Wilbur Glenn Voliva and his followers today presented what they termed an ultimatum to John Alexander Dowie in the form of an offer to submit the whole controversy over Zion City and its business and ecclesiastical affairs to a board of arbitration. Should Dowie refuse to agree to this method of settlement, then all negotiations are to be considered at an end and Dowie's claims to any part, financial or ecclesiastical, in the affairs of Zion City will be fought to a finish.

The proposal of arbitration provides that a committee of four or eight members be appointed, two or four of whom, as the decision may be, to be appointed by each side. Should there be a disagreement by the committee, then a fifth or ninth member shall be appointed by General Overseer Voliva. It is further provided that all property belonging to the Christian Catholic church shall be transferred to this board of arbitration and that their judgment as to whether Voliva or Dowie shall control the same will be final.

No reply to this has yet been made by Dowie. Attorney Wetten, representing Dowie, said tonight, however, that Dowie would never consent to a sacrifice of the ecclesiastical power attendant upon Zion City.

Attorney Newman, representing Overseer Voliva, said tonight:

"We are willing to concede that Dr. Dowie has an indisputable right to 5 per cent of the property owned by the church, but we demand that a conference between the Dowie faction and the followers of Voliva be held and that Dowie sign an agreement whereby he relinquishes all claims to the property in question in consideration of the fact that he is vested with the sole ownership of 5 per cent thereof."

During the conference today between the opposing forces, Attorney Wetten demanded that all statements printed in the last issue of "Leaves of Healing," the official paper of Zion, be designated as slanderous and improper. He telephoned to the postmaster at Zion City, notifying him that if he received any number of "Leaves of Healing" and permitted them to be passed through the mails, he would be amenable to the law. Mr. Wetten also telegraphed to Postmaster General Cortelyou advising him of the situation and asking him to deliver a ruling upon the point at issue. Attorney Wetten claims that to send the last issue of the "Leaves of Healing" through the mails is an offense against the United States government, inasmuch as it contains statements derogatory to the moral character of Dowie.

Both sides are now awaiting a ruling of the United States postal department on the subject.

SEVERE ELECTRIC STORM IN CRIPPLE CREEK DISTRICT.

Special to The Gazette.

CRIPPLE CREEK, April 16.—The first thunder, lightning and hail storm of the season, and one of the severest in several years, visited the Cripple Creek district at 3 o'clock this afternoon. J. Rainter, department electrician at the central power station, was knocked over by a flash transmitted through a wire and was rendered unconscious, his lower limbs being paralyzed. His hearing was also affected, but he is better tonight. Rainter is a lieutenant in company H of Boulder, and served in the Philippine war.

A horse belonging to J. J. Lynch was knocked down in the street by a flash of lightning. Lightning also struck the commissioner's room in the county court house, a ball of fire rolling across the floor and burning the carpet. There was general consternation in the streets during the storm.

MINER FALLS 100 FEET.

Special to The Gazette.

CRIPPLE CREEK, April 16.—John Keimer, 33 years old, fell from the 300 to the 400-foot level in the Chickenhawk shaft of the [illegible] company today. This was his first shift. As he was walking down the drift his candle went out and he was precipitated down the incline shaft, but alighted on his feet. He is believed to be internally injured and is now at the Emergency hospital, where it may be necessary for him to undergo an operation.

STRIKING MINERS BECOME VIOLENT

Engage in Bloody Battle With Deputies---Three Men and a Boy Killed and Others Wounded---Troops Ordered Out.

JOHNSTOWN, Pa., April 16.—Three men and a boy have been shot dead and a mining engineer, Eugene Delaney, seriously injured in a riot at Windber among the striking coal miners tonight. The place is in a state of terror. Sheriff Begley has been summoned and an appeal has been made to Governor Pennypacker for troops. Several others of the rioters have sustained slight injuries.

The dead men and most of the injured are foreigners and their names cannot be obtained. The bodies are lying in the street tonight where they fell, the strikers refusing to allow the undertakers to remove them.

The foreign element had been celebrating Easter Monday in the mining section and much liquor had been used. The streets had been thronged all day with a boisterous crowd, but no sign of trouble appeared until tonight. A body of strikers were assembled in front of the Windber jail discussing the mass meeting that had been held during the afternoon and which had been addressed by three Catholic priests. The discussion grew into argument and soon there was a free-for-all fight. Strike deputies made a number of arrests. All of the arrested men were union men and their colleagues set up a cry that they were being discriminated against.

Officers Forced to Fire.

The arrested men were marched to the jail door but there a mob had formed and an attempt was made to take the men from the officers. Forced back from the jail door, the mob growing more violent every minute, threatened the deputies until the officers fired. When the smoke had cleared away and the victims of the shots were viewed by the crowd there were cries of anger and soon miners who were armed returned the shots of the deputies. The firing ceased almost as soon as it began, however, and the crowd filed away from the jail.

There is much dynamite stored here and it is feared the strikers will resort to the explosive in revenge.

Shortly before midnight the town quieted down and the crowds began to disappear. The state constabulary had been summoned from Greensburg, but a freight train wreck had delayed their train and they will not reach Windber until early in the morning.

More Trouble Expected.

Trouble is expected when the constabulary arrives at the mines, as the foreign element are very antagonistic to the state officers. When something like order began to appear in the town, it was learned that the names of the dead were Petro Martini, Paul Zills, leader of the rioters, and Antonio Mazuca. The boy who was fatally wounded is Charles Foster, 12 years of age.

Eyewitness Talks.

An eyewitness of the riot in describing the affair tonight said the trouble started at 5 o'clock when Deputy Sheriff W. H. McMullin went to the mass meeting held by the striking miners. Many of the miners had been drinking and the sight of the deputy made them furious.

The officer was quickly surrounded by miners who threatened to kill him. McMullin, realizing that his situation was desperate, fled for his life, finding refuge in the house of Councilman Charles Davis. Practically every man who had gone to the mass meeting joined in the chase after the fleeing deputy and soon after the latter had entered the Davis house it was surrounded by a mob of 2,000 shouting, cursing miners, who challenged McMullin to come out.

A Pitched Battle.

When McMullin failed to appear, the mob attacked the house and literally wrecked it. The deputy sheriff was roughly handled, but again managed to escape. The members of the Davis family fled to the homes of nearby neighbors for shelter. Other deputies who had been on duty guarding the property of the coal company had been notified of the trouble by this time and 20 of the rioters were landed in the lockup at Windber. The mob headed by Paul Ellis then marched to the center of the town and prepared to storm the jail and release the rioters. The deputy sheriffs fixed the bayonets to their rifles and surrounded the jail to keep it from the mob's possession if possible. The members of the fire department were also called out to restore order. The foreigners were urged to be orderly but, inflamed by liquor, they refused to listen, greeting the efforts to pacify them with hoots and jeers.

Officers Open Fire.

At a signal the mob began to close in on the jail, shouting to the deputies to throw away their guns and give up the prisoners. The officers first tried to keep the crowd back with bayonets, but the effort was ineffectual, and when it became certain that the little band of deputies and firemen could not stand before the howling, infuriated mob, they opened fire. Those of the foreigners who were closest to the jail had already begun using knives in the attempt to disarm the deputies, while others flourished revolvers. The deputies fired but one volley, and the foreigners broke and fled in wild disorder, leaving three of their number dead in front of the jail. The wounded who were able to walk were hurried to their homes, while an ambulance took the more seriously hurt to the Windber hospital. Fears are entertained that the strikers will make another effort to free the rioters now in jail.

Deputy sheriffs are now guarding the streets of Windber pending the arrival of the state constabulary.

Late tonight the bodies of the men who had been shot were removed from the streets where they had fallen, to an undertaker's establishment. Charles Foster, the 12-year-old boy who was wounded, died at the hospital. Word was also received from Somerset that Sheriff Begley had started for Windber to take charge of the situation.

HOCKING VALLEY MINES TO OPEN

MINERS AND OPERATORS REACH AGREEMENT—THE FIELD EMPLOYS ABOUT 500,000 MEN.

PITTSBURG, April 16.—Chairman Francis L. Robbins of the Pittsburg Coal company tonight announced that all the Hocking Valley mines, excepting those of the Sunday Creek company, had started to work this morning, the operators and miners having concluded and signed the interstate and district wage scales. The mines in operation represent an annual production of 3,750,000 tons of Hocking Valley coal, half of the entire Hocking Valley output, and employs 500,000 men. The following clause, which was attached to the Hocking Valley agreement, was given out by Mr. Robbins.

"Whereas, We, the operators, having signed the 1903 scale and the above rules and conditions, have signed same with the understanding that the United Mine Workers of subdistrict No. 1, district No. 6, will make no different agreement with any operator or company operating in this district."

Mr. Robbins said tonight:

"We have orders for our entire output of Hocking Valley coal, which will enable us to give steady work to our employes. This is the beginning of the end of the stand pattern in Ohio."

It was said tonight that the trailer at the end of the Hocking Valley agreement was expected to tie up operations of the Sunday Creek company until this company agrees to the 1903 scale.

COAL CONFERENCES ARE TO BE HELD

TWO IMPORTANT MEETINGS THIS WEEK AND EQUALLY IMPORTANT DEVELOPMENTS EXPECTED.

INDIANAPOLIS, April 16.—A delegation of Illinois mine operators will be in Indianapolis tomorrow to confer with President Mitchell regarding the strike. West Virginia mine owners will be here not later than Wednesday for an important conference, the nature of which has not been disclosed.

This will be an important week for the mine workers' organization. President Mitchell expects to receive a final answer from the anthracite mine owners regarding a settlement of the dispute in the eastern coalfields. The national executive board of the United Mine Workers, which begins its sessions tomorrow, will insist on knowing at once what the anthracite people are going to do regarding their demands, so that proper action can be taken this week.

It is generally expected that a strike tax will be levied on the miners who are now working. The strikers have as yet drawn nothing from the national miners' treasury, but have reached nearly the end of their resources.

In an impassioned appeal to a large crowd he declared that Moyer and Haywood were not getting a fair trial, and the presence of a committee of union men [illegible]

THOMAS F. WALSH SUED FOR $287,000

S. J. DE SAN, FORMER MAYOR OF GLENWOOD SPRINGS, CLAIMS COMMISSION ON CAMP BIRD DEAL.

DENVER, April 16.—Papers were served today on Thomas F. Walsh, former owner of the Camp Bird mine, near Ouray, Colo., in a suit brought by S. J. De San for $287,000, claimed as commission for effecting the sale of the Camp Bird to the English company that now owns the property. De San was formerly mayor of Glenwood Springs but resides in Ouray.

Mr. Walsh, when seen tonight, admitted having been served with the papers referred to, but said there was no foundation whatever for the action begun by De San. He said his acquaintance with De San was only casual; he had known him both at Leadville and Glenwood, but never were they associated in a business way. He said further that De San had nothing whatever to do with the sale of the Camp Bird mine either as agent in bringing the parties together or in conducting the details of the sale.

DON'T UNDERSTAND CASTRO'S ACTION

VENEZUELANS ARE PUZZLED, BUT THINK HIS RETIREMENT IS ONLY TEMPORARY.

WILLEMSTADT, April 16.—Passengers arriving here today from Venezuela say that the action of General Castro in retiring from the presidency in favor of Vice President Gomez is not clearly understood in Venezuela, but the general opinion seems to be that his retirement is only temporary. General Castro has gone away as a private citizen, unattended and paying the regular fare on the railroad. His wife has gone another way and the former president's sister arrived here today.

The resignation of the Venezuelan cabinet is also causing speculation. The ministers retired when Castro gave up the reins, but Gomez has not appointed a new cabinet, and therefore the old ministers have retained their portfolios. On the other hand, Castro's followers are scattering, leaving the capital in different ways.

At Caracas the political atmosphere has completely changed.

The opinions expressed here, the nearest point to Venezuela, are conflicting. The Venezuelans as a rule are reticent when questioned on the subject. They generally say that Castro is sick and hesitate to give their opinion of his retirement from the presidency.

MINER SUSTAINS FRACTURE OF SKULL.

CRIPPLE CREEK, April 16.—John Holmes, who is leasing between the 1,100 and 1,500-foot levels, on the American Eagle, with Swan and Nelson and Tom Nordeck, was struck on the head six times by the handle of a runaway windlass today, sustaining a compound fracture from the top of his head to the base of his skull. An operation was performed on him tonight, but it is not thought that he can live.

ROUTINE BEFORE THE CITY COUNCIL

STREET IMPROVEMENTS PROVIDED FOR CITY AFTER RAILROADS ADJOURNMENT TILL THURSDAY.

There was an unusually large attendance at the session of the city council last night, including 15 pupils from the public schools who are studying municipal government. Messrs. Hoover, Cotton and others from the Real Estate exchange were also present.

Prof. L. A. E. Ahlers of Colorado college was granted the privilege of the floor for the purpose of requesting a subscription of $150 from the city council toward the publication and distribution of a book booming Colorado college and its surroundings. Prof. Ahlers said that the issue would be 20,000 copies, and the book would contain 48 pages all of descriptive matter and cuts illustrating the city and college. So convincing was the argument advanced that the council unanimously adopted a resolution introduced by Alderman Hill appropriating $150.

A petition for the appointment of M. P. Hartz for city weighmaster was referred to the committee on public buildings and grounds.

A petition from residents of the Fourth ward for the construction of a bridge across Shook's run in the alley between High street and Platte avenue was referred to the street committee.

Tenant for Life?

With reference to a petition to allow Miss Elvira Pearcy to remain in a cottage owned by the city in Cheyenne park, Chairman Hosman of the committee on public buildings and grounds said that he had notified the woman to vacate the property as she had been occupying it for some 16 years and there was grave danger that if she continued to occupy the property without protest from the city, the statute of limitations might give her title to the place. Some of the aldermen suggested upon the bounty of the counts and friends, she should be sent to the county farm at Bear creek. Alderman Tucker offered free use of a three-room cottage. The matter was finally continued for further investigation and went over until the next meeting of the city council.

Alderman Hill presented a resolution providing for a change in the curb line of Costilla street at the undercrossing, and it was adopted.

The council voted to grant an employment agency license to W. T. Christopher.

By the adoption of a resolution introduced by Alderman Hill, the Exchange National bank was authorized to pay over to the city treasurer the sum of $840 accrued interest, to be credited to the endowment fund of Evergreen cemetery.

After the Railroads.

The leaky condition of the Santa Fe bridge spanning the Costilla street undercrossing was called to the attention of the council by Alderman Hill, and a resolution was adopted requiring the railroad company to make the bridge watertight.

The street committee was directed by resolution to investigate and report to the city council by what authority the Rio Grande and Short Line railroads maintain piers in the roadway of South Tejon street and South Nevada avenue, and to report back to the council at the earliest possible moment.

Alderman Verner recommended that the city purchase 28 tons of four-inch water main from the Northfield Water company at a rate of $22 per ton and stated that the regular price for such pipe is $35 per ton. There being some objection to the motion for the reason that Mr. Verner had not made a personal examination of the pipe, the motion was withdrawn.

Streets Improvements.

Alderman Holden from the street committee recommended that the South Tejon street hill be graded and rolled, that the four blocks on North Nevada avenue be placed in good condition as prayed for, that the alley crossings on Tejon street from Cucharas street to Bijou street and on Huerfano street, Pike's Peak avenue and Kiowa street between Cascade and Nevada avenues, be paved with cement. The recommendation of the street committee was adopted by a unanimous vote.

An ordinance regulating traffic in the parking district through the college reservation was introduced by Alderman Hosman and ordered sent to the printer.

Pay rolls and bills amounting to $10,954.83 were read and allowed.

The bill of Gunnell & Chinn for $500 retainer in the case of the Pike's Peak Hydro-Electric company vs. the city of Colorado Springs as agreed, was allowed on motion of Alderman Tucker.

Hydro-Electric Bill.

The bill of the Pike's Peak Hydro-Electric company for street lighting amounting to $1,826.43, was read. The bill had been approved by Street Commissioner A. W. Gray but Alderman Holden of the street committee announced that he had withheld his approval for legal reasons.

An accumulation of bills for supplies furnished the city by Seldomridge Bros. were read amounting to upward of $500 and on motion allowed.

A resolution by Alderman Hosman granting the privilege to the Frontier Publishing company to erect a booth at Cheyenne park, west of the gate to the Stratton park, to be used as a general information bureau, was adopted by a unanimous vote.

The council adjourned to meet again Thursday evening at 8 o'clock.

FAIRLY GOOD PRODUCTION.

Piff Paff Pouf described as a musical cocktail in two acts attracted a large audience to the Opera house last night. The piece is a musical jingle with barely a suggestion of a theme to hold it together. Fred Marr the comedian in the part of Peter Pouffle, managed to ex ite plenty of laughter but his work is too much of the horseplay variety to be genuinely funny. The music is bright and catchy and two or three of the songs are of the kind that stick in one's memory. The piece is attractively costumed and the chorus is made up for the most part of decidedly handsome young women.

WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play when in health and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company California Fig Syrup Co. plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty-cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

ZOBRIST REFUSED A LIQUOR LICENSE

FOURTEEN OUT OF FIFTEEN DRUGSTORE APPLICATIONS GRANTED BY THE CITY COUNCIL.

For a short time last night there was every appearance that the city of Colorado Springs would become a "dry" town, but this possibility was removed by the action of the city council just prior to adjournment when a resolution was adopted granting licenses to fourteen out of the fifteen applicants. The only petition that was refused was that of Charles L. Zobrist who has failed to pay his fines for violating the liquor ordinances.

On motion of Alderman McCaffery, the council voted to consider the fifteen applications in alphabetical order. Alderman Verner expressed the opinion that all of the applications should be acted upon together unless there was some objection, and from the expression of opinion it was evident that some of the aldermen feared a trap. Mr. McCaffery moved that a license be granted to the Antlers Pharmacy company for a term of six months subject to the terms and conditions of a resolution of April 20, 1905. Mr. Verner declared that he would have to vote against the license unless the petitions were acted upon simultaneously. A roll call showed Aldermen Tucker, McCaffery and Hosmanrea; Aldermen Hill, Albin, Verner and Holden, nay, and the motion was declared lost.

The entire list of applications was then read, but action was deferred until just prior to adjournment, when Alderman Tucker introduced a resolution granting liquor licenses to the following drug stores: The Antlers Pharmacy company, the J. H. Crapper Drug company, the Colorado Springs Drug company, Adolph Fehringer, 115 East Pike's Peak avenue; G. J. Gillespie, 15 East Huerfano street; the Hefley-Arcularius Drug company, the Korsmeyer Drug company, the F. H. Martin Drug company, Ed. Meislahn, the Owl Drug company, the Red Cross Drug company, the Robinson Drug company, C. E. Smith, and the D. S. Way Drug company. The resolution was adopted by a vote of 5 yeas, 2 nays, Aldermen Hill and Holden voting in the negative.

CLIFF DWELLINGS TO BE PRESERVED

NOTED ARCHAEOLOGIST DISCUSSES GOVERNMENT'S PLANS TO TAKE CARE OF THE RUINS.

Before a highly appreciative audience in Perkins hall at Colorado college last night, Professor Edgar Lee Hewett of Washington gave an interesting lecture on the cliff dwellings throughout the United States, making his address a plea for immediate action in the protection of America's ruins from vandalism and the raids of the curio and relic hunter. Professor Hewett said in part:

"Until recently little action has been taken to preserve American antiquities. In the past three years, however, vigorous work has been done by American archaeologists and the federal government. This is not a question for the states to handle, because almost all of the ruins are situated on land over which the states have no control, but which is owned and under the supervision of the United States government. This control is divided among three departments, that of agriculture, of the interior and of war. The agricultural department has taken steps to have all of the ruins on forest ranges protected by forest rangers. Twenty-five per cent of the ruins in this country are on Indian reservations and under the guardianship of the department of the interior. Those protected by Indian police are adequately cared for. Among the latter class are the Mesa Verde ruins in this state. Certain of the ruins are on the public domain, and under the protection of the war department. These, like the forest preserves, are well guarded.

"Other steps are being taken now to guard these ruins. There are two bills before congress, one to give the president the power to declare all ruins on private property national monuments and look after their protection, and the other to create a national park out of that part of the Mesa Verde ruins which are not on an Indian reservation. Should these two bills pass, the ruins in this state would be fully taken care of.

"But this is not the only question. An expenditure of money must be made in order to keep these ruins from falling to pieces, and within a few years from becoming nothing more than historical remembrances. Many of them now would collapse with the first slight earthquake shock in their vicinity, while others need bracing and careful protection. This, I think, is the next step in caring for these ruins, which are so valuable to the United States."

NO POLITICAL AMBITION

Judge Cunningham Denies Rumors About Supreme Bench Candidacy.

Judge L. W. Cunningham [illegible] questioned yesterday with reference to a rumor in circulation that he would be a candidate for the supreme bench to succeed Judge Gabbert and another rumor that he would be a candidate to succeed himself on the district bench of the Fourth judicial district, denied both rumors, saying: "There is no attempt upon my part to seek any political ambition and I am perfectly willing to return to my private practice and I am calculating upon doing so. My efforts are now being directed to shape up my affairs for a return to private life."

Hoffer, the present physical director and is popular with members of the Springs Y. M. C. A.

MONEY AND LIQUOR

New York Tourists Land in Jail for Being Hilarious.

Jake Bassett and Frank Chanellas, two pilgrims from Elmira, N. Y., the the one with $291.45 in spare cash on his person and the other with the sum of $199.81 concealed in his clothes, reached Colorado Springs yesterday on a tour of the west. Somewhere this side of the Mississippi river the wanderers secured an oversupply of that which cheers. The result of the mixture of money and fire water was that the two became hilarious about 4 o'clock yesterday afternoon at the D. & R. G. depot and landed, after much protest, in the city lockup. They will face the police judge this morning.

DEPUTY USED GUN

An Obstreperous Colored Prisoner Is Caught After a Lively Chase.

After a long session with a bottle Nathan Spivey, colored, started trouble at home about 7:30 o'clock last evening by throwing things at his wife. The woman objected, and Deputy Sheriff Grimes was called to the scene. The sheriff arrested his man and started with him for the county jail. Spivey, however, became obstreperous. With a directed shove he temporarily disposed of the officer and began to make rapid time down the street. Grimes pulled his revolver and fired twice over the negro's head without result. He then chased his man a couple of blocks and rearrested him. He is now locked up in the county jail.

HERE AT HOME

Colorado Springs Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed "the Little Quaker Remedy" so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Colorado Springs citizen:

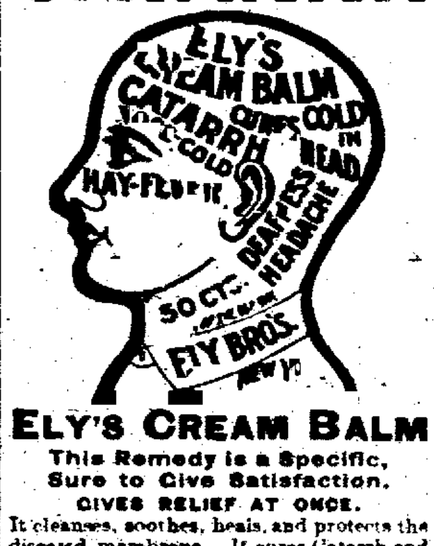

Benjamin DeGraff, retired farmer, of 511 E. Boulder street, says: "For several years I have had a dull, heavy pain across the small of my back. At first it was not continuous but there came a time when it never let up, and it was followed by too frequent action of the kidney secretions. When on a ranch twelve miles out of the city my brother [illegible] knowing I had more or less trouble with my kidneys, bought two boxes of Doan's Kidney Pills and mailed them to me. I took them as directed, and found that they benefited me a great deal. Since that time I have used several boxes and the treatment proved just what is claimed for it. I have no hesitancy in recommending Doan's Kidney Pills very emphatically."

Plenty more proof like this from Colorado Springs people. Call at D. Y. Butcher Drug Co.'s store and ask what their customers report.

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald of Woodbridge, N. J., writes:

Dear Mrs. Pinkham:
"Restored health has meant so much to me that I cannot help from telling about it for the sake of other suffering women.
"For a long time I suffered untold agony with a female trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

GORKY IN ECLIPSE.

THE circumstances attending the expulsion from a New York hotel of Maxim Gorky the noted Russian writer and revolutionist are likely to interfere seriously with the success of his mission in this country The ardor of Mark Twain W D Howells and other distinguished Americans who at first espoused his cause with enthusiasm has been somewhat dampened, and the present status of the Russian is a little uncertain The European standard of morals is one thing and that of America is quite another and however great the allowances we may make for the eccentricities of genius it is rather straining the point to accept on even terms a man who deserts his wife and children and takes another woman as his traveling companion

A dispatch from St Petersburg this morning asserts that the woman who is now in New York with Gorky and whom he presented as his wife is really Madame Andreiva, a Russian actress who has been prominent in the revolutionary movement. If Gorky and his fellow propagandists thought it advisable that this woman come to the United States with him to help solicit funds, nobody could have offered criticism but for her to masquerade as his wife is an entirely different matter. The upshot of the whole affair will probably be the hasty return of Gorky to Europe with his mission unfulfilled

Another incident that has tended to inspire Americans with distrust of the Russian agitator is his telegram of sympathy to Moyer and Haywood This telegram was sent at the instigation of an American Socialist whose guest Gorky happened to be at the time and it may be that the Russian imperfectly understood the situation and unwittingly permitted his name to be used to further a cause of which he otherwise would have steered clear. There is a vast difference between the Russians who are conscientiously struggling for greater civil liberty and criminals of the Moyer Haywood stripe The former are working in a noble cause for they are endeavoring to lift up humanity, the latter are common enemies of society who would overturn the established order and stop at no crime in doing so It is impossible to draw a parallel between political and social conditions in this country and Russia for no parallel exists If Gorky or any other foreigner with only the most superficial knowledge of our institutions thinks he can come to the United States and arouse sympathy for the cause of the "brotherhood of man" by giving comfort to such outcasts as Moyer and Haywood, he is making a tremendous mistake This is a free country, and every man, citizen or alien is free to say and do what he pleases so long as he keeps within the pale of the law which society has established for its protection Gorky is at liberty to talk to his heart's content, within these bounds but if he is sincerely anxious to arouse the sympathy of the American people for the cause he professes to represent he will have to begin all over again and follow a new tack

THE "JEFFERSONIAN DEMOCRACY."

AT A dinner given in New York last night by the Democratic Club of that city the spirit of Jefferson was again invoked by several speakers notably Mayor McClellan The Jefferson tradition is about the only remaining tie that binds the Democratic party together and whenever a crowd of adherents to any of the diversified fads and isms that go by the name of Democracy get together the first order of business is an oratorical glorification of the founder of the party. Of course the speakers always have a good deal to say about the unchanging and unchangeable Jeffersonian principles. "The moment the party forgets its principles," said Mayor McClellan last night "calling itself as Democratic as you will, nevertheless it ceases to be the party of Jefferson Change its name blot out its past but preserve its principles and the work that Jefferson began must endure always"

Mr McClellan also informed his hearers that "the spirit of Jefferson is as present today as it was a century ago The spirit of Jefferson is ready to lead now as then It depends upon us whether or not we shall follow All of which is doubtless very true but the plain fact is that while the principles of Jefferson survive they are not adhered to by the Democratic party or at least by a faction of that party sufficiently influential to make itself dominant

In the April number of the North American Review there is an article advocating the nomination of Woodrow Wilson as the Democratic candidate for President signed "A Jeffersonian Democrat" and presumably written by Col George Harvey editor of that publication In this article the writer declares that the country needs for President "a man who although steeped in Jeffersonian teachings can be trusted at a given crisis to ask not what Jefferson did a century ago but what Jefferson would do now" If this is the test to be applied to Jeffersonian aspirants to the Presidency it is hard to see where the Democracy will find a candidate and still harder to see where the candidate will find a following Just now the "safe and sane" faction is far in the background and the radical element—more radical than ever before is in the van Hearst's race for the mayoralty of New York last fall made him one of the really big men of his party and a factor to be considered in calculations for the next three or four years at least He represents the dominant element in the party an element that is irrevocably committed to such milder forms of socialism as municipal ownership and that shows a strong tendency to espouse the more radical socialistic doctrine of government ownership of railroads and telegraph lines

This is the faction that today exercises the greatest influence in the Democratic party and it unblushingly appropriates the term "Jeffersonian" Yet does anybody suppose that Hearst could be trusted at a given crisis to ask not what Jefferson did a century ago but what Jefferson would do now? There is really about as much similarity between the principles of Jefferson and the principles of Hearst as there is between the Sermon on the Mount and the doctrines of Machiavelli Imagine Jefferson who believed that the power of the government should be made visible to the smallest extent possible indorsing the socialistic idea of government ownership and operation of railroads

The Democratic party has undergone a remarkable change in the last year or two and the radical leaders of yesterday are the conservatives of today Parker and the other leaders of the last campaign who called themselves "safe and sane" are now entirely eliminated The march of events has compelled Bryan to lay aside the free silver folly and though he doubtless would like to do so it is scarcely possible that he will ever be able to revive it Stripped of this fetich Bryan now appears to be about the safest and sanest leader in the party He is too conservative for the Hearst crowd Indeed Hearst has openly announced that he and Bryan no longer speak as they pass by and readers of the Yellow Kid's papers look in vain for the name of the peerless statesman of the Platte once so conspicuous in their columns It is not impossible that within the next two or three years the so-called conservative forces of Democracy will rally around Bryan to oppose the extreme radicalism of Hearst Bryan is and always has been popular with "the masses," which is a strong point in favor of his claims to supreme leadership while Woodrow Wilson however energetically he may be pushed forward by the conservative Eastern wing is not likely to awaken popular enthusiasm If present tendencies count for anything the radical faction of the party will gain control and the next Presidential campaign will be waged between a Democratic party composed of extremists demagogical reformers and other malcontents and the Republican party embodying the sane and conservative forces of the country

CORRUPT CONSULAR OFFICIALS.

THE recent report on the derelictions of American consuls in China made to Secretary Root by Assistant Secretary of State Peirce recalls Kipling's observations concerning the absence of the Ten Commandments east of Suez According to Mr Peirce some of the most important consular offices in the Far East have been filled with grafters and drunkards There are eighty-two charges of misconduct against former Consul-General Goodnow at Shanghai McWade consul at Canton is said to have been guilty of drunkenness and corruption in office Oscar F Williams at Singapore who was formerly consul at Manila, is spoken of by Mr Peirce as "not a man of such bearing as to inspire confidence, and Consul Wilcox at Hankow is mentioned as one who "can not be said to be a useful consular officer Mr Peirce also mentions Consul Greener at Vladivostok "whose habits are said to be extremely bad

Either there is something in the atmosphere of the Far East fatal to the morals of American officials or else an uncommonly bad lot of men have been sent to represent the commercial interests of their country in that region The latter premise is probably the correct one All of these men are creatures of the spoils system holding their positions as rewards for past political services rather than because of peculiar fitness. So far as morals go it would hardly be fair to say that they are typical of American commercial representatives abroad but in every other way they are neither better nor worse than their colleagues in the consular service stationed at other important foreign cities

The condition disclosed by Mr Peirce's investigations suggests that there may be some connection between the present unfriendly feeling for the United States in China and the character of the men who represent this country there It is said that on a public occasion in Canton, Consul McWade "was disgracefully drunk and made a public exhibition of himself Canton is one of the most important of the Chinese treaty ports and the volume of our commerce there is immense It can hardly be supposed that at a time when commercial relations between the two countries are strained almost to the breaking point, the presence of an American representative of this character would tend to relieve the situation

Unfortunately the Senate amended the Lodge consular reform bill in such a way as to eliminate some of its best features but there is still enough vitality left in it to bring about a decided improvement in the consular service The grafters drunkards and incompetents will be weeded out and the business methods which have made the consular services of other nations so successful will be introduced And apparently there is no better place for a beginning to be made in the application of these methods than the Far East A thorough house-cleaning is needed there, and the sooner it begins the better for the good name of the country

The appointment of John W. Sheafor to succeed Judge Robert E Lewis of the District Court, comes as the reward of conscientious and persistent hustling Mr Sheafor is now Assistant District Attorney before that he was City Attorney, and two or three years ago he was a candidate for the Republican nomination for District Judge It is to be hoped that he will prove a worthy successor to Judge Lewis

STANDARD OIL EVASIONS

The subpoena dodging of John D Rockefeller and the contumacious silence of H H Rogers ... have ... to keep ... the ... records ... fact that the Standard Oil company owns certain ostensibly independent companies operating in Missouri The ... necessary to ... a ... of this fact from Rogers however has seriously impressed the public with the necessity of ... means of securing legal proof of well-known conditions It was requisite in this case first for the State of Missouri to engage in prolonged proceedings in New York then to hale before the courts of the latter state a witness who was plainly bent upon defying the authority of Missouri's attorney general and upon concealing the truth then ... the New York courts decided that Missouri's supreme court must aver the materiality of the questions ... answered to go back to its own court and secure a decision to this effect and finally to return to New York armed with this decision and put the questions And all the time there was no public doubt of the fact which this proceeding was designed to lay down in set terms in the records But the process of evasion and dispute is not concluded for it is understood that the Standard Oil company will now go before the Supreme court of Missouri and attack the materiality of the questions and upon being defeated as is probable will appeal to the United States supreme court from that ruling Thus if this program is carried out two or three years may elapse before the admission of Rogers that the Standard Oil company owns the Republic Oil company and the Waters-Pierce Oil company operating in Missouri will have been fully and legally established

This farce must inevitably have a serious effect upon the public mind The cry of the times is for a greater degree of publicity in the details of corporation organization and management The trusts have opposed all efforts to compel them to spread their books before properly accredited officers of the law and public administration They have in one case gone so far as to spirit off the records and ledgers carrying them out of the United States and sending away all the employes cognizant of the circumstances involved the proceedings In this latest instance the Standard Oil company has resisted determined endeavor to get forth as the basis for further proceedings the fact widely accepted that it is the owner of certain companies which should be competitors, but are in truth mere feeders of the trust If there were a suitable system of publicity of records all this ridiculous tangle of examinations and court appeals would be obviated

The strenuous resistence of the trusts to the demands of the people have only served to intensify the feeling that something must be done to secure speedier adjustments in the courts John D Rockefeller's sensational evasion of the subpoena servers has illustrated another phase of the evil Now he is no longer wanted by the attorney general of Missouri and he can go and come ... between New York and New Jersey But the public will long remember the spectacle he afforded of the power of an individual of vast resources to block the processes of judicial inquiry —Washington Star

CHULA CRITICISES BERNHARDT.

Mme Sarah Bernhardt came from Paris France, to the center of the corn belt and showed to the largest audience that ever in the world gathered together to witness a dramatic performance It was done in Kansas City, this state at Convention hall A $10 000 audience New York couldn't do it, nor Paris nor Chicago nor London Our own Kansas City did it in a canter, easily without a whoop or yell, just naturally without turning a hair

But our these is not Kansas City Kansas City will be with us always while Mme Berhardt is passing When two or three are gathered together talking about Sarah Bernhardt they speak of her age of her slimness, of her propensity to kick over the tugs This is not right If you had been in Convention hall last Wednesday night Sarah's age would have been the least of your troubles. You wouldn't have lost any sleep because she didn't stick out as far in places as some women do And the ocean rolls between K C and gay Paree which is about the only thing you would regret as to her conduct Everything is done the same in France as in Kansas City except talking They make love the same and Sarah is past master of the art Although we are from the country bourgeois, yet we could understand it all Every bit of it. Except the language Yes sir. The play was "Camille" by the younger Dumas Nobody ever liked the book much nor the play but we are talking about Bernhardt who is Camille in the play Camille is a beautiful Paris courtesan with the consumption She dies shortly but in the meantime is a very warm number as it were Duval loves her and she loves him but some other fellows are paying her expenses. Duval has the shorts They do very wrong but Dumas, who wrote the story attributes that to their great love and the fact that Camille had consumption—and then all this happened in Paris Finally old man Duval comes in from the country and gets Camille to tell young Duval that she loves one of the other fellows Thinks that will break it up and save his boy's future She tells him Mon Dieu! What a magnificent dimpled little liar she is. He goes away after standing her on her head and she gets worse soon sends for him and dies in his arms Making love and dying are Sarah's two long suits If you fellows think it's fun to see her die you ought to have been at Convention hall last Wednesday night You'd a give $18 to miss it The other show was in plain sight from the arena balcony Some day she will do that and it will be sure enough But then they pay her well for getting close to the edge I wouldn't do it for $1 500 a time You ain't talking to me.

When Sarah hugs O mercy me!
She throws her arms out far apart
A joy bird flutters in your heart
For once in life you're sure on deck
She reaches twice around your neck,
When Sarah hugs

When Sarah bows O mercy me!
She leads her fingers to the tips
With kisses from her warm red lips,
And casts them forth to fill the air,
And every fellow gets his share,
When Sarah bows

When Sarah dies O mercy me!
You forget the things that she has done
Her capers then are all your own
It seems like she's been pretty good
And you've not lived just like you should
When Sarah dies

HOLBROOK & PERKINS

VICTIM OF WOMAN SWINDLER DENIES LOVING MRS. CHEATHAM

David McKee, Back From San Antonio, Tex., Gives Interesting Details of Game Whereby He Lost $6,000. Woman's Career Reads Like Yellow-Backed Novel.

[illegible] that Mrs. [illegible] Cheatham-Denning shall pay the [illegible] finance," David McKee, who [illegible] of de[illegible] $6,000, returned to Colorado Springs yesterday from San Antonio, Texas. He says it may be a [illegible] before the woman will be brought here, as the court of appeals still has to review the evidence in her [illegible] against extradition. Undersheriff George Dayton is in San Antonio awaiting developments, and will remain there until the question is settled.

Denies Love Affair.

That Mrs. Denning with [illegible] beguiled him into throwing away his good money is indignantly denied by Mr. McKee. "All that has been said about me being in love with her is untrue," said McKee. "I was forced into a position where, in order to protect my own interests, it was necessary for me to be friendly with Mrs. Denning. I paid her no social attention, and there was no talk between us of marriage. She may have [illegible] McAdams, Denning, French and others out of their fortunes by promising to marry them, but not me."

McKee's story of Mrs. Denning's [illegible] of financial affairs is interesting, and among other things he relates a scheme employed to throw him off the trail when he was endeavoring to find and bring her to book.

Denning's Experience.

"Denning owned a house valued at $[illegible] in Chanute, Kan.," said McKee. "Although he was a married man, he fell in love with a woman named Rowe, and his wife, learning this, secured a divorce. Denning came to Colorado Springs early last spring and took charge of a rooming house. Here he met Mrs. Cheatham, fell in love with her and then was made defendant in a breach of promise suit brought by Mrs. Rowe, who attached the property in Chanute. Denning deeded the property to his daughter, Miss Flora Denning. On September 21, 1905, Denning and Mrs. Cheatham were married in [illegible], Colo., and the daughter deeded the property to Denning's wife.

Got $8,000 Easily.

"Mrs. Denning then went to Kansas to sell the property, but could not do so because of the fact that, although it was not known that she was Denning's wife, it was suspected she was interested in his affairs. Before this, Mrs. Cheatham-Denning had secured $[illegible] from J. A. McAdams, who sold his dairy at Cameron, Mo., to come to Colorado Springs, marry Mrs. Cheatham and engage in the rooming house business. The woman only had $1,200 left when she arrived here, saying that she had lost the remainder while coming to Colorado.

"Failing to sell the property, Mrs. Denning gave McAdams a deed to it, but immediately received one retransferring the title to her. The first deed was the only one recorded. Mr. Denning told me he knew where we could sell the property at a big price, which would prove a profitable deal for both of us. Mrs. Denning brought me the deed giving McAdams title, and I paid her $6,000. The Dennings kept the deed to show the people who were going to buy the property. Then Mrs. Denning took the deed to McAdams and told him I would not make the purchase.

Swindle Is Discovered.

"When I found that I had been swindled, Mrs. Denning had disappeared, and I immediately began the search. I looked for her in New Mexico, Oklahoma and Texas. Knowing that she had a son in Fort Worth university, I followed this clew and the boy unwittingly gave the information that she was in San Antonio. She was arrested there on March 21. I was with the officer who took her into custody. When she saw me she smiled, shook hands and offered to compromise, saying she would pay me all within 30 days.

Son Gave a Clew.

"Mrs. Denning knew that I was looking for me so she went to the City of Mexico and from there wrote me a letter to throw me off the trail. She said that with her husband and daughter, Mrs. J. C. Dulvey, and the latter's husband, she was going into business there and invited me to call on them while there and to make myself right at home—it wouldn't cost me a cent. Inclosed in the letter was a 'Buttinski' card, giving the bearer right to 'butt in' on any conversation, either public or private. I took the advice and got right in."

In denying that he ever was in love with Mrs. Cheatham-Denning, McKee recited the chain of circumstances that held him between two fires.

"Mrs. Cheatham came to Raton, N. M., and went into the rooming house business with Mr. and Mrs. Harry Musselwhite," he said. "The rooming house, which was heavily insured, burned, and the three were arrested on a charge of setting fire to it in order to get the insurance money. They were released, but Mrs. Cheatham failed to pay her attorneys.

Perjury Charge.

"The Musselwhites had sold a ranch to Mrs. Cheatham to get money with which to go into the rooming house business. I bought the ranch, paying Mrs. Cheatham $1,500 cash for it. Mrs. Cheatham's attorneys attached the ranch for fees, believing it belonged to her. The Musselwhites claimed Mrs. Cheatham had swindled them out of the ranch, not paying for it. Mrs. Cheatham said she had paid for it and that I had paid her for it. She then was arrested on a charge of perjury. In order to protect my own interests through her testimony, by attorneys advised me to go on her bond and to help her out of the trouble—and that is how I became associated with her.

Fighting Extradition.

"Mrs. Cheatham-Denning—and some of the others—will have to answer for what they have done. She is fighting the case to the limit, but Undersheriff Dayton says he will stay there all summer if necessary; he's going to bring her back to Colorado Springs."

McKee has lived in Colorado Springs for about a year. He formerly was marshal of Raton, N. M., for several years was a deputy sheriff at the Raton Coal and Coke company camps, and owned a large livery and transfer establishment in Raton.

SERIOUS FINANCIAL QUESTION INVOLVED IN KINDERGARTENS

Special Meeting of Taxpayers Called on Day of School Election, May 7---Crowded Condition of Schools Means Heavy Taxation to Provide Kindergarten Accommodations.

[illegible]

While the board of education [illegible] power to establish these kindergartens, the question [illegible] of finances and the board [illegible] take action without the [illegible] of the taxpayers. Owing to [illegible] maturity of bonded indebtedness, an increase in the school tax is inevitable, and if the kindergartens are established this [illegible] will be augmented. The board has been petitioned by the Woman's club and the various kindergarten associations to add kindergartens to the system. A number of taxpayers have protested. While the board members approve of kindergartens, there is no sentiment involved, and the decision to take a referendum vote is purely because of the financial situation.

District No. 11 has issued bonds from time to time and under the state laws these bonds [illegible] for a term of fifteen [illegible] years [illegible] of [illegible] the county [illegible] required [illegible] per cent of [illegible] The five-year period has expired [illegible] of these bonds, and in December of this year the five-year period [illegible] expire on [illegible] of 1902. Last [illegible] bonds [illegible] This [illegible] the [illegible] per [illegible] $2,000 [illegible] make a [illegible] increase. Last year the district had a surplus of $5,000, which was applied to reduce the interest from $15[illegible] to $10,000. This year there is no surplus and the levy will be made on the $15,000 basis.

It is estimated that there are between 1,000 and 1,200 children of kindergarten age, that is three, four and five years old, in the district. To accommodate the proportion of these who probably would attend would entail the erection of several new buildings, or the enlargement of the present buildings, which are all crowded. Private associations formerly conducted kindergartens at the Lowell, Steele and Columbia schools in rooms furnished by the board of education. Increased attendance in the grades, however, made it necessary for these rooms to be vacated by the kindergartens.

FLOWER GARDEN 40 MILES LONG

SHORT LINE SECURES EXPERT TO PLANT WILD FLOWERS ALONG ITS ENTIRE RIGHT OF WAY.

The Cripple Creek Short Line will be the first American railroad company to beautify the country along its tracks by the planting of wild flower seeds. To do this General Passenger Agent D. C. MacWatters has engaged the services of Professor Andrews, of the University of Colorado, who is probably the highest authority on wild flowers in the United States.

Professor Andrews will ship today from Boulder a consignment of thousands of wild flower seeds of every variety which will flourish in this altitude. There are now 175 varieties of wild flowers growing along the Short Line, and Professor Andrews is sending a hundred more for planting.

A special Short Line train will be run on Friday, Arbor day, with a crew of section men and a car of seeds. The train will be stopped at numerous points along the line and the seeds planted by the workmen. It is also planned to plant vines and creepers which will literally cover the station houses.

Mr. MacWatters says that the Short Line does not intend to run any wild flower excursions this summer. The road ran only one in the last five years and will never run another because of the wanton destruction of flowers during these excursions. The seeds will be planted for the sole purpose of making the Short Line trip beautiful.

Consumption is a Germ Disease. How Can it Start With a Cold?

This is a reasonable question and one that must arise to the mind of almost everyone when the claim is made that consumption starts with a cold. The cold simply prepares the system for the reception and development of germs of that disease, that would not otherwise have found lodgment. It is the same with diphtheria, scarlet fever and measles. They are most likely to be contracted when the child has a cold. That is why a cold should never be neglected. The longer it hangs on the greater the danger. As a quick cure for colds Chamberlain's Cough Remedy can always be relied upon. Its remarkable cures have won for it a world wide reputation and an immense sale. It is pleasant and safe to take. For sale by all druggists.

If you go around with pale cheeks, if you lack strength, vitality and the sparkle of radiating health, you are not selecting your food wisely.

TRADING ACTIVE IN FIRST HOUR

PRICES ADVANCE AT THE OPENING BUT FALL OFF TOWARD THE CLOSE OF THE DAY.

NEW YORK, April 16.—The general demand for stocks today, prompted by last week's important developments in the money market, on the whole proved moderate. Trading was active during the first hour of the session, but a large proportion of the day's total business was transacted in that time. Neither was there any important addition to the price advances after that time and in the final hour they were generally lost. This was something of a disappointment to the speculative element, which had counted on a decided revival of speculative activity with the definite breaking of the stringency in money. The fact of the breaking of the stringency was undeniable and no further apprehension of immediate scarcity of money was heard expressed. The moderate effect on the stock market of this long-hoped-for condition was the cause of widely varied conjectures. The considerable advance of the latter part of last week was regarded as having discounted the favorable change in the money situation to some degree. The fact that London observed the Easter Monday holiday today, left open the question as to what effect would be produced both on the stock market and on money rates in London as the result of the forced withdrawals of gold from there for New York account. An unfavorable effect on the London money market might have a reflex effect here in spite of the direct benefit to New York of the gold supply secured. English newspaper comment on the situation gave evidence of some apprehension as to the results in this week's engagements of gold received amounting to $3,100,000, including an engagement made on Saturday, too late to be reported.

Today's statement of subtreasury operations with the banks showed a loss in cash by the government institutions of $11,919,000, making a total loss thus far for the banking week of $16,588,000. This is due, of course, to the deposit of government funds with the banks against engagements of gold under the plan of the secretary of the treasury announced Saturday. This gain by the banks will figure in next Saturday's bank statement.

Under the secretary's plan, however, the banks receiving these sums will turn them back into the subtreasury upon the arrival of gold. The strength of the Saturday bank statement is thus seen to have been achieved without the operation of the new plan for facilitating gold imports.

Quotations on New York exchange at interior points today, indicated that the flow of currency to this center which set in last week, was still in force. There was very active discussion in banking circles of the new plan of the United States treasury measures to stimulate gold imports. In stock exchange circles in fact that a new precedent had been set in the matter is causing an undercurrent of apprehension that conditions in the money market had been more serious than commonly supposed to prompt such a departure from established custom. The decision of the governors of the stock exchange in keeping open the exchange on Good Friday, contrary to custom, had something of the same effect on sentiment.

The show of strength in today's market was most noticeable in industrials and specialties, and especially in those not of first grade. The closing of Thursday for the dividend meeting of Amalgamated Copper induced active speculation in that stock on the expected rise. Forced selling of Butterick Publishing company broke that stock 13 points, the decline being attributed to fear of losses by the printers' strike. Foreign exchange was strong but call money worked easier during the day. Prices of stocks, however, continue to recede from the early rise and closed easy and generally at net losses.

Bonds were irregular. Total sales, par value, $2,080,000.

United States bonds were all unchanged on call.

WHEAT AND OATS WEAK YESTERDAY

NEWS FAVORABLE TO BEAR ELEMENT—CORN MARKET STRONG AND ACTIVE ALL DAY.

CHICAGO, April 16.—The wheat market was weak for the greater part of the day. At the opening the May option was off ¼@¾ to ¼@⅝, at 79⅝ to 79¾. The news for the day was for the most part favorable to the bears. World's shipments for the week were larger than had been previously estimated, the total movement being 9,360,000 bushels, and the amount on ocean passage increased only 368,000 bushels, against an increase of 1,120,000 bushels last year. Primary receipts were large, being 456,000 bushels, against 432,000 bushels one year ago.

Conditions in this country were extremely favorable both for the growing crop and seeding operations in the northwest. This last was an important factor in depressing prices. At 79 the May delivery touched the lowest point of the day. Within the last half hour part of the loss was regained on covering by shorts. The market closed fairly steady with May at 79⅝. July sold between 78⅝ and 79 and closed at a loss of ¼@⅝ at 78¾.

The corn market was strong all day. There was an active demand by shorts and cash houses, but offerings were only moderate in quantity. Small local receipts, continued large shipments from Chicago and a decrease of 1,392,000 bushels in the visible supply were the chief causes of strength in the market. The close was strong with prices almost at the highest point of the day. May opened unchanged to ⅛ lower at 46½ to 46¼, advancing to 46⅞@47, and closed at 46⅞. July ranged between 45¾ and 46¼ and closed at 46⅛.

Because of persistent realizing by prominent bulls, a weak tone prevailed in the oats market. Commission houses were free sellers and offerings were taken principally by shorts. The favorable weather for seeding was the chief depressing influence. May opened ¼@⅜ to ½@⅝ lower at 31⅜ to 32, sold at 32¼@⅜ and then declined to 31⅝@⅝. The close was at 31¾@⅞. July ranged between 30⅜ and 31@⅛ and closed at 30⅝@¾.

Provisions were firm throughout the day, chiefly because of a five-cent advance in the price of live hogs. A local packer was an active buyer of ribs. At the close, July pork was up 7½ at $16.37½.

Lard was up 10c at $8.90. Ribs were 12½c higher at $8.92½.

SECRETARY SHAW'S NEW SCHEME MUCH DISCUSSED.

NEW YORK, April 16.—Secretary Shaw's plan to allow national banks to forestall the arrival of gold imports by the withdrawal of its equivalent in cash from the United States subtreasury upon the deposit therein of bonds as securities, was much discussed in the financial district today. Some of the private banking houses which dealt in foreign exchange and which have been accustomed to import gold declared that so long as the secretary's plan remained in operation, they will be unable to make any further importations, as they have not the same facilities as national banks for carrying large blocks of bonds to offer as security. Their business, they asserted, will be ruined under this plan.

One foreign banker asserted that the United States banks will not get a single extra gold shipment because of Mr. Shaw's plan, but said the importations might begin a day or two earlier than they ordinarily would. A friend of Secretary Shaw said that the secretary maintained the plan was a benefit to the foreign exchange houses as well as national banks, as they will get the immediate benefits of their gold.

W. P. H. STRIKE IS REMARKABLE

NARROW STREAK CARRIES 400 TO 500 OUNCES IN GOLD TO THE TON—OTHER NOTES.

Special to The Gazette.

CRIPPLE CREEK, April 16.—The recent W. P. H. strike, an account of which was first given in The Gazette, is even richer than was first reported. A narrow streak from one to four inches in width carried from 400 to 500 ounces in gold. One grab sample today shows values of 1,000 ounces to the ton. The lowest values from the screening from this streak so far obtained were seven ounces.

If this vein continues to hold out for 90 days it is predicted that the U. G. M. company will take out as much ore as did Harrison and Seaver, who mined $750,000 from this famous bonanza.

Stacy and Mack have opened two feet of ore in a 10-foot hole on block No. 125 of the Crescent claim of the Stratton estate, on Womack hill, that runs $50 to the ton.

This discovery was made by two boys, who were "playing" mining and had rigged up a small hoist. Mack noticed the dirt and panned it, and then secured the lease.

It is reported that Henry Dahl, who has a lease on the Jennie Sample property, on Raven hill, is shipping from one to two cars of ore a week that will run from $50 to $60. It is stated that a narrow streak in the shoot runs from $200 to $250. The shoot is two feet wide and the ore is being mined in a winze on the 400-foot level.

Dr. Pankey and associates, operating at a depth of 175 feet, just above the main shaft on the Ajax property, is shipping from five to seven cars of ore a month that runs $50. There are now about 14 sets of lessees on the Ajax, and all have ore. They are shipping collectively about 1,000 tons a month.

Amter and company have made a strike on the 700-foot level of the Modoc on Bull hill. They have opened a narrow shoot of black manganese that runs $50 to the ton. They will make their first shipment tomorrow.

COLORADO CITY

CITY COUNCIL MEETS

Geo. Birdsall Resigns as Fire Department Chief.

The city council met in regular session last night, all being present except Alderman Colporan.

The Colorado City Iris was made the official paper for the coming year. A plumber's license was granted to Frank Priest on approved bond of $1,000. The finance committee reported the purchase of a $200 safe and rescinded a resolution to give the order of Elks $100 on account of the order's convention being held in Denver instead of Colorado Springs.

On report of the street committee, it was decided not to open North Fifth street from Colorado avenue to Jackson avenue. C. Edell was employed at a salary of $15 a month to look after the Bott park.

The clerk's annual report shows a cash balance in bank April 1 of $1,467. Outstanding warrants amount to $10.48 as against $7,116.16 in outstanding warrants on April 1, 1905, and a deficit in the bank of $1,467. The report of the auditing committee was accepted. An ordinance regulating pound charges for stray animals and police magistrate's fees for the same passed its final reading.

A resolution was adopted requiring owners of property on Lincoln avenue, from the eastern limits of the city to Sixth street, to build sidewalks within fifteen days.

Application for saloon license was granted to Henry Coby, D. H. Reese, A. Perrine, Jas. I. Lacey, John Dempsey, A. Baumgartel, Geo. A. Lyman, L. F. Risser, Tom Rubias, D. M. Sponsiller, Comer Liquor Co., W. H. Dyer, Henry Geissing, John Dougherty, Jacob Schmidt, and N. B. Hames. Wholesale licenses were granted to Otto Fehringer, M. Schwartz & Co., John W. Fleiemeyer, M. J. Goldsmith, Jas. I. Lacey, and the Colorado Ice, Feed and Fuel Co.

George Birdsall, chief of police, tendered his resignation as chief of the fire department, which office he has held for the last seven years without pay. Owing to the action of the council at the last meeting in taking away pound fees from his office, the resignation was tendered. The matter came as a surprise to the council, and it was referred to a committee of the whole.

An old building at 828 Jefferson avenue was declared a nuisance and ordered torn down. The committee on public lands and buildings was empowered to employ a man to take care of Fairview cemetery.

HAD NARROW ESCAPE

C. E. Griswold Hurt by Machinery at Portland Mill.

C. E. Griswold, oiler at the Portland mills, had a narrow escape from being crushed to death yesterday morning. While standing between two big revolving wheels oiling the machinery, his coat sleeve was caught and torn from his body. At the same time the shaft inflicted some bad bruises on his right side. He was brought to the Emergency hospital, where Dr. J. F. Willard dressed his wounds and sent him to his home, 916 Monroe avenue.

DREADFUL ATTACK OF WHOOPING COUGH.

Mrs. Ellen Harlison, of 90 Park ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough, one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor, who prescribed Foley's Honey and Tar. With the very first dose they began to improve, and we feel that it has saved their lives." Refuse substitutes. For sale by Hefley-Arcularius Drug Co.

CHRONIC BRONCHITIS CURED.
"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman of Montmorenci, Ind. "I tried all remedies available but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." For sale by Hefley-Arcularius Drug Co.

Charge Against Fort Collins Man Arrested in This City.

At the request of Sheriff J. M. McCreery of Fort Collins, Colo., Sheriff Grimes yesterday placed under arrest A. J. Kimps, who is charged with selling mortgaged property, and the Fort Collins officer will arrive for the prisoner this morning. Kimps was with his wife and two small children on South Tejon street when arrested. It is alleged that Kimps disposed of a chili parlor and tamale business at Fort Collins upon representation that the property was clear and free of all incumbrance and left Fort Collins on Saturday. It was afterward found that the business and fixtures were covered by a chattel mortgage.

Foley's Honey and Tar contains no opiates and will not constipate like nearly all other cough medicines. Refuse substitutes. For sale by Hefley-Arcularius Drug Co.
